DVORKIS ET AL.

Patent No. 6,220,514

Issue Date: APRIL 24, 2001

For: ELECTRO-OPTICAL SCANNER  
HAVING STATIONARY,  
MULTI-SURFACE MIRROR HAVING  
SURFACES WITH APLANAR  
PROFILES

Attorney Docket No.  
83201

Date Submitted:  
August 29, 2005

REQUEST FOR EXPEDITED ISSUANCE OF CERTIFICATE OF CORRECTION

Assistant Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This is a request for Expedited Issuance of a Certificate of Correction under MPEP 1480.01.

Expedited issuance is requested because goods are being imported into the U.S. in violation of this patent and litigation counsel has informed me that an investigation before the International Trade Commission (ITC) under 19 U.S.C. § 337 cannot commence until the inventorship is corrected.

The application which reissued as the subject patent was filed as a divisional of serial number 09/009,231, (filed on January 20, 1998, and which subsequently issued as U.S. Patent No. 5,988,502). In filing the divisional, the invention was restricted to the invention of figure 12. On August 26, 1999, the applicant in the above-identified application filed a request that the inventorship of the application be amended to recite only the properly named

APPROVED

SEP 27 2005

FOR THE DIRECTOR OF USPTO

14  
# cont. with paper only (1050) to ETL on September 23, 2005  
to expedite for issuance of CCR in October 11, 2005 issue

In re Patent Application of:  
**DVORKIS ET AL**  
Patent No. 6,220,514  
Issue Date: **APRIL 24, 2001**

---

inventors for the figure 12 invention, namely Boris Metlitsky, Edward Barkan and Paul Dvorkis. A copy of that request is attached hereto as Exhibit A.

Exhibit A was a proper Request for a Correction of Inventorship under 37 C.F.R. § 1.48(b) and complied with 37 C.F.R. § 1.63(d)(2).

A second request to amend inventorship is indicated above was filed as part of a preliminary amendment in June 9, 1999. A copy of that preliminary amendment is attached as Exhibit B. See page 6 of Exhibit B for the second request.

Having complied properly with the provisions of 37 C.F.R. § 1.48(b) and 37 C.F.R. § 1.63(d)(2), the change in inventorship should have been granted. However, the patent issued incorrectly listing twelve inventors instead of the three properly named inventors.

In the only office action issued prior to Notice of Allowance on June 6, 2000, the Examiner did not address the Requests for Correction of Inventorship. See Exhibit C. A Notice of Allowance issued on October 23, 2000, without any action being taken to correct the inventorship. As a result, the patent issued on April 24, 2001, naming twelve inventors, only three of whom actually participated in the invention claimed in the patent.

A Certificate of Correction form PTO/SB/44 correcting the names of the inventors in accordance with the repeated requests by the applicant is attached hereto. As Exhibit D.

Since the requirements of MPEP 1480.01 have been met, and since the error is clear on the face of the file wrapper as evidenced by the attachments, applicants request expedited issuance of a Certificate of Correction.

A request under 37 C.F.R. § 1.48(b) was filed in the application which resulted in the subject patent but not acted on until after the application became a patent. As set forth in

In re Patent Application of:  
**DVORKIS ET AL**  
Patent No. **6,220,514**  
Issue Date: **APRIL 24, 2001**

---

MPEP 1481 (page 1400-80, column 1, second full paragraph) procedurally, this request may be treated as a petition under 37 C.F.R. § 1.324 and, should be granted using form paragraph 10.14 as set forth in column 2 of page 1400-80 of the MPEP.

Applicants specifically request that this correction be made on an extremely expedited basis.

Respectfully submitted,

David L. Stewart
